The link between couples' pregnancy intentions and behavior: does it matter who is asked? Waller MR and Bitler MP, p. 194.

The more obese a woman is, the greater her risk of having a stillbirth, Digest, p. 56.

Vertical transmission rate is low when pregnant women get HIV therapy, Digest, p. 184.

Who smokes while pregnant? FYI, p. 64.

Public Opinion
There oughta be a law (not!), FYI, p. 128.

Reproductive Health
Circumstances of women's first birth may be linked to their health during middle age, Digest, p. 57.

Pill use is associated with reductions in overall risk of cancer and in risk of main gynecologic cancers, see **Oral Contraceptives**.

Service Providers
Despite published recommendations, adults' routine health care often lacks attention to STD prevention, see **STDs**.

Reproductive health service preferences and perceptions of quality among low-income women: racial, ethnic and language group differences, Becker D and Tsui AO, p. 202.

USAID targets Marie Stopes, FYI, p. 192.

Sex Education
Recent evaluations of the peer-led approach in adolescent sexual health education: a systematic review, Kim CR and Free C, p. 144.

Sex education: what works? FYI, p. 64.

Sexual Behavior
A majority of teenagers who have had intercourse also have had oral sex, see **Teenagers**.

Changes in sexual risk behavior as young men transition to adulthood, see **Males**.

For some newly homeless youth, living situation and substance use are linked to risky sexual behavior, see **Teenagers**.

Internet use assists men's meeting of male sex partners, but does not promote unprotected sex, see **Males**.

Long-term benefits of delaying first sex appear to be limited, Digest, p. 121.

Methamphetamine use is linked to risky behavior in heterosexual encounters, Digest, p. 53.

Older sexual partners during adolescence: links to reproductive health outcomes in young adulthood, see **Teenagers**.

Past academic, drug-related and sexual behaviors predict risky sex after high school, see **Teenagers**.

Pathways from family religiosity to adolescent sexual activity and contraceptive use, see **Teenagers**.

Pleasure, prophylaxis and procreation: a qualitative analysis of intermittent contraceptive use and unintended pregnancy, see **Contraceptive Practice**.

Prevalence of sexual risk behaviors among U.S. high school students declined between 1991 and 2007, see **Teenagers**.

Sexual behavior of single adult American women, Lindberg LD and Singh S, p. 27.

STDs among sexually active female college students: does sexual orientation make a difference? see **STDs**.

Teenagers who refrain from having sex may experience social, emotional consequences, see **Teenagers**.

Teenagers' sexual identity may not reflect behavior; both are linked to risk, see **Teenagers**.

The opposite of sex? adolescents' thoughts about abstinence and sex, and their sexual behavior, see **Teenagers**.

The quality of young people's heterosexual relationships: a longitudinal analysis of characteristics shaping subjective experience, see **Teenagers**.

Timing of sexual debut and initiation of postsecondary education by early adulthood, Spriggs AL and Halpern CT, p. 152.

STDs
Call to action on HIV among Latinos, FYI, p. 129.

Computer-assisted surveys may expand understanding of STD risks and incidence, Digest, p. 183.

Despite published recommendations, adults' routine health care often lacks attention to STD prevention, Digest, p. 120.

Effects of a school-based, theory-driven HIV and pregnancy prevention curriculum, see **Evaluation of Programs**.

Get out of jail, but keep taking your meds, FYI, p. 65.

Getting to know you, FYI, p. 193.

Hepatitis B immunization coverage low among men who have sex with men, Digest, p. 185.

Missed HIV diagnoses: major oops, FYI, p. 65.

New vaccination uptake low, FYI, p. 193.

Participants in HIV vaccine trials may experience negative social effects, Digest, p. 58.

Rapid HIV tests not widely used in community settings, FYI, p. 64.

STD prevention: behavioral counseling gets federal nod, FYI, p. 192.

STDs among sexually active female college students: does sexual orientation make a difference? Lindley LL, Barnett CL, Brandt HM, Hardin JW and Burcin M, p. 212.

STDs among young adults linked to childhood and teenage risk factors, Digest, p. 182.

Take the test to the people, FYI, p. 5.

When you care enough to send the very best, FYI, p. 193.

With antiretroviral drugs, life, with HIV, goes on, FYI, p. 193.

Trend headed the wrong way, FYI, p. 129.

Sterilization
No cut might make the cut, FYI, p. 4.

Teenagers
A majority of teenagers who have had intercourse also have had oral sex, Digest, p. 241.

Association of conventional goals and perceptions of pregnancy with female teenagers' pregnancy avoidance behavior and attitudes, Jumping-Eagle S, Sheeder J, Kelly LS and Stevens-Simon C, p. 74.

Avoidance≠prevention, FYI, p. 5.

Changes in sexual risk behavior as young men transition to adulthood, see **Males**.

Do virginity pledges work? FYI, p. 128.

Effects of a school-based, theory-driven HIV and pregnancy prevention curriculum, see **Evaluation of Programs**.

Feelings of abandonment may predict pregnancy among homeless adolescents, see **Pregnancy and Childbirth**.

For some newly homeless youth, living situation and substance use are linked to risky sexual behavior, Digest, p. 122.

IUDs for teenagers? see **Intrauterine Devices**.

Older sexual partners during adolescence: links to reproductive health outcomes in young adulthood, Ryan S, Franzetta K, Manlove JS and Schelar E, p. 17.

Past academic, drug-related and sexual behaviors predict risky sex after high school, Digest, p. 181.

Pathways from family religiosity to adolescent sexual activity and contraceptive use, Manlove J, Logan C, Moore KA and Ikramullah E, p. 105.

Prevalence of sexual risk behaviors among U.S. high school students declined between 1991 and 2007, Digest, p. 180.

Recent evaluations of the peer-led approach in adolescent sexual health education: a systematic review, see **Sex Education**.

Repetition may be key to success in parent-child discussions about sex, Digest, p. 119.

Teenagers' sexual identity may not reflect behavior; both are linked to risk, Digest, p. 239.

Teenagers who refrain from having sex may experience social, emotional consequences, Digest, p. 118.

The opposite of sex? adolescents' thoughts about abstinence and sex, and their sexual behavior, Masters NT, Beadnell BA, Morrison DM, Hoppe MJ and Gillmore MR, p. 87.

The quality of young people's heterosexual relationships: a longitudinal analysis of characteristics shaping subjective experience, Wight D, Parkes A, Strange V, Allen E, Bonell C and Henderson M, p. 226.

Timing of sexual debut and initiation of postsecondary education by early adulthood, see **Sexual Behavior**.
